CREATIVE COLLECTIVE MEDIA

Shoot + Edit + Posting Package

(15 short-form vertical videos, posted every other day across all platforms.)

WHAT TO EXPECT

We set the direction, plan your message, and map the content. We lead a one-location shoot and coach you on camera. You show up ready to follow the process.

WHAT THIS IS

Media training that makes finished content. The final videos are raw, organic phone footage.

WHAT THIS IS NOT

No drones, gimbals, multiple locations, fancy edits, or cinematic listing videos. The focus is your delivery, not production flash.

THE RIGHT FIT

This works when you trust our direction and process and put in the reps. This does not work if you micromanage, reopen approved copy, or repeatedly redo shots over small appearance details; that slows production. This is not for clients chasing views, virality, immediate ROI, or leads. Those outcomes are not guaranteed.

THE MAIN GOAL

Speak clearly and confidently on camera, then build the skill to make natural phone videos consistently at scale.

MONTHLY INVESTMENT

STARTS AT \$2,500 / MONTH

Expanded packages: \$3,000-\$6,000+ per month.

No contract. Month-to-month auto billing. Cancel anytime.

We recommend committing to 12 months for the best results.

**Set up a one-time trial session.
Two-hour shoot for \$1,000.**

(5-7 vertical videos; no posting)
